

Hello,

My name is Jessica Mullaney, and I live on 41 Harvard Ct, in Middletown, CT. I am writing to show my support for HB 5707. All lab animals deserve the right to continue to live their lives after their time in the lab is up. The fact that we torture these animals is bad enough, but to kill them afterwards and to not allow them to live the remainder of their lives (and experience happiness) is downright inhumane. Please pass Beagle Freedom's bill, HB 5707.

Sincerely,  
Jessica
